A software for Design & Process Failure Mode & Effects Analysis

Failure Mode & Effects Analysis

Failure Mode & Effects Analysis (FMEA) is a structured approach to evaluation and mitigation of risks. It is a popular tool for potential identification and risk management for Design and Process failures.

FMEA Executive v 5

FMEA Executive software helps you perform Design and Process FMEA. Thoughtfully designed features of FMEA Executive help you take your FMEA effort beyond mere documentation to a Effectiveness and results oriented one.

FMEAs created and managed by FMEA Executive reflect in your results in terms of quicker problem identification and resolution. The voluminous activity of FMEA requires your attention to every detail without missing out anything. Powerful reporting and tracking features of FMEA Executive help you manage by exception.

Your benefits- Key Reasons why you should use FMEA Executive

✓ Action Oriented Organization of FMEAs

FMEAs Executive organizes FMEAs in a tree structure, making sure that no step is skipped and no detail is left out. Each FMEA becomes an action item bank for process and design improvement.

✓ Intelligent search: Knowledge Management

FMEA Executive commits every aspect of an FMEA to a common database. This builds up into a pool of Knowledge, that is your organizational asset of problem solving knowledge. Use the intelligent search feature to search for past problem solving cycles, and similar failures occurring in the past. Visit and emulate proves problem solving strategies for your designs and processes.

✓ Organize peripheral information around the FMEA

You can attach all relevant information to a Failure Mode, and make it available for ready reference to all users of FMEAs. Attach Process-Flow Charts, Control Plans, P Diagrams, Pictures of failure, in MS Word, MS Excel, picture formats, CAD models to the failure mode that takes inputs from these.

✓ Conform to Quality Standards

FMEA Executive version 5 conforms to the guidelines of the 4th Edition of the AIAG FMEA manual. Using FMEA Executive, you conform to Quality Standards.

✓ Actionable Reports

Audit trails, Outstanding and Overdue Action reports, RPN and Severity priorities help you in managing by exception. FMEA is no longer a daunting task. Your attention and priorities are channelized to where they are needed the most.
